National Yunlin University of Science and Technology Graduate School of Design Doctoral Program Recognition of Graduate Academic Publications, International Conferences, and Foreign Language Proficiency Tests Enforcement Rules

1. These enforcement rules are established in accordance with the Doctoral Program Study Guidelines, Qualification Examination Enforcement Rules and Degree Examination Regulations of the Graduate School of Design, National Yunlin University of Science and Technology.

2. The academic publications and international conference papers referred to in these enforcement rules refer to works published by graduate students during their enrollment at the graduate school.

3. Papers published in domestic and international academic publications or international conferences should bear the full name of the graduate school under the author's affiliated institution. Additionally, the paper should have the co-authorship of the student's advisor. The graduate student should be the first author (or the advisor should be the first author, with the graduate student as the second author; If there are co-advisors, the graduate student's authorship position can be postponed) Only then will the graduate school recognize the published paper.

4. New journals and international conferences will be reviewed every April of each academic year. (Resolution by the Doctoral Committee on September 29, 2010)

5. Based on academic ethics, graduate students must obtain the consent of their advisors before using their names for submission. (Resolution by the Doctoral Committee on September 29, 2010)

6. Graduate students who have obtained their degree but whose journal publication eventually not published, will be subject to a review by the graduate school's Doctoral Committee. If the investigation confirms a violation of academic ethics, the degree will be revoked, and public notification of the degree revocation will be issued. Previously issued degree certificates will be retrieved, and other colleges, universities, and relevant institutions will be notified. In case of other legal violations, relevant laws will be applied. (Resolution by the Doctoral Committee on December 18, 2013)

7. Regulations related to academic journal publications for doctoral students:：

    i. This graduate school recognizes academic journals as listed in [Appendix 1: National Yunlin University of Science and Technology Graduate School of Design Doctoral Program Recognized Academic Publications (Journals) for the Publication of Student Papers].For journal recognition, beside advisor and co-advisor, only academic journals submitted by the first author will be recognized. (Resolution by the Doctoral Committee on December 18, 2014)

    ii. For articles published in Japanese journals, if students use Japanese language for

publication, a Japanese language proficiency certificate must be attached. Students are encouraged to use English for publication whenever possible. (Resolution by the Doctoral Committee on May 3, 2006)

   iii. Domestically published journals in Taiwan that are entirely in English (SCI, SSCI, SCIE, A&HCI, TSSCI Level 1, and THCI Level 1) are recognized as international journals by the graduate school. (Resolution by the Doctoral Committee on January 25, 2007; Amendment by the Doctoral Committee on June 27, 2023)

   iv. The first-level core journals of THCI and TSSCI are academic journals recognized by the graduate school. (Resolution by the Doctoral Committee on March 27, 2019)

   v. The graduate school only recognized one article for the Sustainability journal (applicable to new students starting from the academic year 2022). (Resolution by the Doctoral Committee on June 27, 2023)

8. Regulations related to international conference paper publications by doctoral students: :

   i. This graduate school recognizes international conferences as listed in Appendix 2: National Yunlin University of Science and Technology Graduate School of Design, Doctoral Program Recognized International Conferences for the Publication of Student Papers.

   ii. Papers presented at international conferences that are simultaneously published in international journals will only be recognized as international conference presentations and not as journal submissions. (Resolution by the Doctoral Committee on June 23, 2020; Amendment by the Doctoral Committee on June 27, 2023)

   iii. If doctoral students entering from the academic year 2015 (inclusive) and onward participated in conferences held in areas with Chinese as the official language, may only submit one paper for exemption. (Resolution by the Doctoral Committee on December 18, 2014)

   iv. International conference recognition standards (Resolution by the Doctoral Committee on October 16, 2019): It must be publicly solicited and have a review system, organized or commissioned by international societies and institutions to hold continuous international conferences (held for the second time or more, and need to be recognized before submission, not retroactive to the first publication). Full English paper presentations and publications are required, with a minimum of 4 pages for recognition. (Resolution by the Doctoral Committee on April 7, 2020)

   v. When applying for exemption, the acceptance certificate of the published paper, the original manuscript, and photos of the paper presentation must be attached.

9. Regulations related to foreign language proficiency tests for doctoral students:

The graduate school recognizes foreign language proficiency tests as listed in [Appendix 3: Comparison Table of Foreign Language Proficiency Test Standards for Master's and Doctoral Programs of the Graduate School of Design, National Yunlin University of Science and Technology]. In addition to the specified requirement of a minimum score of 650 on the New TOEIC test, the language proficiency passing threshold can be exempted, to a maximum of 200 points, through the following means:

   A. One paper published in SCI, SCIE, SSCI, or A&HCI journals can be recognized for an exemption of 100 points on the New TOEIC test. The same paper can be used to exempt 0.5 points on the IELTS. Other international journals recognized by the graduate school can be used to exempt 75 points on the New TOEIC test, (for graduate school's other recognized journals (Type C), recognition is allowed only once in the same journal), applicable to all past and present doctoral students.

   B. Attending one conference recognized by the graduate school abroad can exempt 50 points on the New TOEIC test (up to a maximum of 4 conferences), and is implemented after the announcement (mainly after January 12, 2022). Online conferences are not counted.

   C. Taking courses in the English Elite Program offered by the university's Language Center,

achieving a score of 70 or higher in the course, can exempt 50 points on the New TOEIC test. These course credits are not included in the graduation credits.

D. According to the language proficiency test standards of the graduate school (as detailed in Appendix 3: National Yunlin University of Science and Technology Graduate School of Design Comparison Table of Foreign Language Proficiency Test Standards for Master's and Doctoral Programs), those who pass before admission are recognized for having completed the foreign language proficiency requirements. For those who have not passed, their foreign language proficiency tests are only recognized during their enrollment. (Resolution by the Doctoral Committee on October 22, 2013; Amendment by the Doctoral Committee on June 27, 2023)

E. Foreign students studying at this graduate school can use a language other than their native language for foreign language requirement recognition. (Resolution by the Doctoral Committee on October 22, 2013)

F. Students who have foreign degrees (including bachelor's or master's) applying to this graduate school can all be exempted from the recognition of "foreign language proficiency test," but not including China, Hong Kong, Macao, and must be from countries with non-Chinese language systems.

G. Those who have applied to study at a foreign university (excluding universities in China) that have agreement with the graduate school as exchange students, or have applied for government-sponsored international academic exchange programs (such as the National Science and Technology Council 's Thousand Talents Program), are required to reside in the host country for a minimum of six months (consecutive 180 days), and may accumulate this duration up to three times with different host organizations. The number of study outcome reports increases with accordance to the number of foreign studies. Those who apply for the equivalency of foreign language proficiency recognition in this item must submit an overseas study plan application to the graduate school office for evaluation by the doctoral program committee. Upon returning to Taiwan, students must present a public report on their achievement and submit written reports in both Chinese and foreign languages (A4 size, at least 6 pages each) and submit it to the office. Once the reports are approved by the committee, the applicant can be recognized as having equivalent foreign language proficiency.

H. Students at this graduate school who go abroad for exchanges are generally required to do so during their enrollment. Those with special needs require the approval of the Doctoral Committee. Scholarships cannot be applied for during a leave of absence.

10. Matters not covered by the enforcement rules handled in accordance with the relevant regulations of the doctoral program.

11. These Enforcement Rules are announced and implemented after being approved and announced by the Doctoral Committee of the Graduate School. The same applies when amendments are made.
